PROFESSIONAL SUMMARY

Computer and Information Sciences graduate with a strong interest in Front-End Development. Skilled in HTML, CSS, and responsive design, with hands-on experience through real-world projects and a virtual internship. Passionate about building modern, user-friendly websites and continuously learning new technologies.

EXPERIENCE

Web Design Intern — NTI – National Telecommunication Institute  Jan 2026 – Present

- Gaining hands-on experience with modern web design frameworks and responsive UI/UX principles.
- Translating design wireframes into functional HTML/CSS code.

ACHIEVEMENTS

- Certificate of Excellence – AASTMT (2024–2025)
- Earned multiple certifications from online platforms.
- [Certificates](#)

PROJECTS

Two-Way Chat Application — *Java Socket Programming*  Dec 2025

- Built a client-server communication system using Java Sockets.
- Implemented multi-threading for simultaneous data exchange.

Bank Database System — *SQL*  Oct 2025 – Dec 2025

- Designed a complete ERD for a banking system.
- Developed optimized SQL tables for customers, accounts, and employees.

Digital Safe Lock System — *Digital Logic Design*  Dec 2025

- Designed a digital safe circuit using logic gates and counters.
- Simulated secure access control with error handling.

EDUCATION

B.Sc. Computer & Information Sciences  Graduated: Oct 2028

Arab Academy for Science, Technology & Maritime Transport

TECHNICAL SKILLS

Languages: Java (OOP), C++, C, Python

Databases: SQL — Joins, Aggregates, Schema Design

Networking: Subnetting, TCP/IP, Protocol Analysis

Mathematics: Linear Algebra, Probability & Statistics

COURSES

- Web Development Suite – YouTube (Self-Learning)
- HTML & CSS Full Course – Elzero Web School
- Linear Algebra for Computer Science – Self-Study
- Network Engineering Essentials – Self-Study

LANGUAGES

 **Arabic** — Native

 **English** — Professional Working Proficiency
